Dear Mike,

I am just sending a quick note to say Thank You to the responding officers from the VPD, your Sonitrol monitoring staff and the 911 operators involved in your coordinated response last night. Our site was breached overnight at approximately 1:20 AM. Your staff detected it immediately and dispatched the VPD right away — resulting in a capture on our site only moments later!

We have been using your Sonavision Live Monitored Video on multiple sites for seven years and your system has recorded over 40 apprehensions for us in that time frame! Remarkable.

Again, please forward this note to the VPD and your Sonitrol monitoring staff - we really appreciate their fast response to our site.

Sincerely,

A handwritten signature in black ink, appearing to read 'Chris Davies', with a long horizontal line extending from the end of the signature.
